

Sales copy — AI Agent Playbook (EN)

Landing page (`/products/ai-agent-playbook`) + social CTAs. Price: **€29**.

H1 (hero)

Build your first AI agent — and sell it. The complete playbook + 3 skills + 1 n8n workflow. Yours for €29.

Sub-hero

6 chapters to go from "I played with ChatGPT" to "I have an AI agent in production at a client paying me €250/mo in maintenance". No theory. Only things you can ship.

Value bullets (4)

- 📖 **6 chapters from concept to cash** — concept, architecture, build, test, packaging, sales. With concrete examples and real pricing.
- ⚡ **1 ready-to-import n8n workflow** (`agent-starter.json`) — a working receptionist agent in 30 min, built on Claude Sonnet 4.6
- 📁 **3 bundled Claude skills** — `agent-prompt-architect` (design your prompt), `n8n-builder` (generate workflows), `content-creator` (post what you learn)
- 💰 **The full pricing method** — 3 billing models (fixed / fixed + monthly / performance), with real numbers and advice on which to pick

Primary CTA

Get the playbook — €29 → *(Gumroad button)*

Secondary CTA

Secure Gumroad checkout. You get the ZIP + all files in 30 seconds.

"Who it's for" section

This is for you if:

- You can use ChatGPT but you've never built a working AI agent
- You want to add "AI agent" to your freelance / agency offer (and bill for it)
- You know n8n a bit (or you're ready to learn — 1h max)
- You're tired of theoretical courses on "the future of AI"

This is NOT for you if:

- You want to learn Python and build from scratch — here we use n8n + Claude API directly
 - You're looking for low-level (LangChain, custom code agents) — Skool community for that, later
 - You've never opened n8n and refuse to try
-

Short variants (stories / posts / DMs)

Variant 1 — Specificity

The playbook I wish I'd had when I sold my first AI agent. 6 chapters + workflow + 3 skills. €29. Link in bio.

Variant 2 — Curiosity gap / Result

Closed my first AI agent client for €2,500 + €250/mo recurring. I tell everything in 6 chapters. €29. Link in bio.

Variant 3 — Challenge

Still watching theoretical "AI for Business" courses? Here's a playbook that gets you shipping an agent in 30 min. €29.

Variant 4 — Transparency

The exact system I use to sell AI agents at Taiyka. n8n workflow + Claude skills + pricing method. €29. Nothing hidden.

Variant 5 — Problem hook

Everyone's talking about AI agents. Nobody says how to price them or where to find clients. My playbook answers both. €29.

Post-purchase email

Subject: ✅ Your AI Agent Playbook is ready — first agent in 30 min

Body:

Hey,

Thanks for buying 🙌

Download the pack here → [ZIP_LINK]

Inside:

- **The full playbook** ([playbook-fr.md](#) + [playbook-en.md](#)) — 6 chapters
- **The n8n workflow** ([agent-starter.json](#)) — a ready-to-import receptionist agent
- **3 bundled Claude skills** ([content-creator](#) , [n8n-builder](#) , [agent-prompt-architect](#))
- **Quick-start guide** ([guide-fr.md](#) + [guide-en.md](#)) — the "I have 30 min" version

My advice to get started:

1. If you're in a rush → read [guide-en.md](#) (15 min read). You'll have an agent running in 30 min.
2. If you want to go deep → start [playbook-en.md](#) from chapter 1. Plan 90 min reading for the 6 chapters.
3. **Important:** do NOT skip chapters 5 and 6 (packaging + sales). That's where the money hides. Building is the easy part.

When your first agent is running, **DM me on Insta** ([@manuai.to](#)) — I love seeing what people build.

Stuck somewhere? Reply to this email. I read everything, I reply fast.

Now go ship 🚀

— Manu

PS: the [Skool community](#) publishes one new agent per month minimum (with workflow + prompt + tools all wired), weekly live Q&As, and you can have your first agent reviewed live by me. If you want to accelerate after this playbook, that's the place.
