

Sales copy — Client Acquisition Bundle (EN)

Landing page (`/products/client-acquisition-bundle`) + social CTAs. Price: **€39**.

H1 (hero)

Stop wasting hours on contracts. The full proposals + contracts + invoices pack. Yours for €39.

Sub-hero

6 bilingual templates (FR/EN) ready to sign + 3 Python scripts that generate the branded PDF in 30 seconds. You fill in, you send. Never again Google Docs at 11pm copy-pasting a template you found online.

Value bullets (4)

- 📄 **6 pro templates, FR + EN** — proposal, contract (fixed-price + retainer), invoice. French-law-compliant legal mentions included, adaptable to any jurisdiction.
- ⚡ **3 Python scripts that generate the branded PDF** — fill a small JSON, get a clean proposal / contract / invoice. 30 seconds per doc.
- ☁ **Google Drive upload built-in** (optional) — your PDFs go straight to your Drive with a shareable link. No more heavy email attachments.
- 🎨 **100% customisable** — colours, logo, sections, currency. Everything sits in files you control. No SaaS, no monthly fee.

Primary CTA

Get the bundle — €39 → *(Gumroad button)*

Secondary CTA

Secure Gumroad checkout. You get the ZIP + FR/EN guides in 30 seconds.

"Who it's for" section

This is for you if:

- You're a freelancer, consultant or agency signing at least 1 client per month
- You're tired of using Word templates from 2015 found on forums
- You want your documents to match your professional level — not have your client wondering if you know what you're doing
- You work with both French **and** international clients, so bilingual is non-negotiable

This is NOT for you if:

- You're looking for an e-signature tool — get Yousign / DocuSign / SignWell instead
 - You want a full CRM — this pack handles documents, not pipeline tracking (for that, see Skool)
-

Short variants (stories / posts / DMs)

Variant 1 — Problem / Solution

Your contracts look bad → your clients hesitate to sign. I built a pack: 6 pro templates + 3 scripts that ship the PDFs in 30 sec. €39. Link in bio.

Variant 2 — Specificity

6 bilingual templates (FR/EN) + 3 Python scripts to generate branded proposals / contracts / invoices as PDF. €39, lifetime. Link in bio.

Variant 3 — Challenge

Are you still copy-pasting contract bits found on Google? Seriously. I have a pro pack at €39. Stop hurting yourself.

Variant 4 — Transparency

The exact pack I use at Taiyka to sign my clients. Templates + Python scripts. €39. Nothing hidden.

Variant 5 — Curiosity gap

I signed my last 12 clients using the same stack of 9 files. I'm giving it away for €39. Link in bio.

Post-purchase email

Subject: ✅ Your Client Acquisition Bundle is ready (10-min setup)

Body:

Hey,

Thanks for buying 🙌

Download the pack here → [ZIP_LINK]

Inside:

- **6 bilingual templates** (proposal, fixed-price + retainer contract, invoice — all in FR + EN)
- **3 Python scripts** (`create_proposal.py` , `create_contract.py` , `create_invoice.py`)
- **Full FR + EN setup guide** with troubleshooting
- **Sample JSONs** ready to duplicate for your first documents

My advice to get started:

1. If you're signing your first contract this month → use the Markdown templates directly. Copy into Google Docs, fill in, export PDF. 5 minutes, done.
2. If you're signing 2+ clients per month → install the Python scripts (10 min setup, see guide). After that, it's 30 seconds per doc.

The Python mode with Google Drive upload is magic once it's in place — you fill a JSON, the branded PDF lands in your Drive with a shareable link. Your clients think you have a team.

Stuck somewhere? Reply to this email — I read everything, I reply fast.

Now go ship 🚀

— Manu @manuai.to

PS: if you want the **guided conversational mode** (Claude asks you the questions one by one and fills the JSON for you), that's in the **Skool community** with my 3 official skills `/contract-builder` , `/proposal-builder` and `/invoice-builder` . See the end of the guide.
