

Competitor Intelligence System — Sales page (EN)

Hero

Know exactly what your competitors are doing. Every week. Without lifting a finger.

A complete system that scrapes Instagram, TikTok, YouTube and LinkedIn daily, stores the history, and sends you a strategic report written by Claude every Monday morning.

Price: €49 — one-shot, lifetime access, free updates.

[→ Give me the system]

The promise in one line

Go from *"I don't really know what my competitors are up to"* to *"I have their strategy in my inbox every Monday at 8 AM"*.

Who it's for

- **B2B founders** who want to track their 10-20 competitors without hiring an analyst
- **Marketing teams** tired of hand-built Excel reports
- **Agencies** that want to offer competitive intel as a white-label service
- **Consultants** selling strategy who want their recommendations backed by fresh data

If you still manually check your competitors' Instagrams every Tuesday, this product is for you.

What's in the box

- **5 ready-to-import n8n workflows** — Instagram, TikTok, YouTube, LinkedIn + weekly report generator
 - **A complete Supabase schema** — 3 tables, indexed, built to hold 2+ years of history
 - **A 40-page playbook** (FR + EN) — setup, architecture, Claude prompt explained, customisation, troubleshooting
 - **A 2h quick-start guide** — to test the system before going deep
 - **The calibrated analysis prompt** — the one I use in production for my Taiyka clients
-

Why it's different

- **Zero extra SaaS fees.** Everything runs on your stack. No monthly subscription that'll hike prices in 6 months.
 - **Real cost: ~€10/month.** Apify + Anthropic + Supabase free tier = unbeatable.
 - **100% customisable.** It's all n8n. Change the prompt, frequency, platforms in 5 min.
 - **Claude, not GPT.** The report is actionable, not generic. Tested on 30+ real reports.
 - **Productised from a real client.** This is the system I built for a B2B industrial client. Running for 6 months.
-

Social / Short variants

Twitter / LinkedIn:

I built a system that scrapes your competitors' Instagram, TikTok, YouTube and LinkedIn every day. Every Monday, Claude emails you a strategic report. €49, lifetime access. Link in bio.

Instagram / TikTok caption:

Still checking your competitors' accounts by hand? Way behind. I packaged the system I use for my clients — €49, install once, runs by itself.

Video hook:

There's a thing 90% of founders do manually. It can be automated in 2h.

Post-purchase email

Subject: Your Competitor Intelligence System is here

Hey [firstname],

Thanks for trusting me — here's your access.

In the pack:

- 5 n8n workflows (import as-is)
- The Supabase schema (SQL ready to paste)
- The full playbook (FR + EN) — 40 pages
- The 2h quick-start
- The calibrated Claude prompt

Best order to start:

1. Read [guide-en.md](#) (10 min) — see the shape
2. Set up Supabase + your API keys (45 min)
3. Import the 5 n8n workflows, replace placeholders (30 min)
4. Run a manual test on each collector
5. Wait 2-3 days for data to flow in
6. First report generation → your inbox

Stuck anywhere? Reply to this email. I read every message.

And if you want to go further — advanced pipeline versions, real-time alerting, live reviews of your reports — the [Taiyka Skool community](#) is the next step.

Here's to your next well-briefed Monday morning.
