

Sales copy — 50 Prompts to Automate Your Business (EN)

For the landing page (</products/prompt-pack-50>) AND social CTAs.

H1 (hero)

50 prompts I actually use in my business. \$12. Yours.

Sub-hero

Not another "100 ChatGPT prompts" puff piece. Just 50 prompts battle-tested in Claude, ChatGPT and n8n — by category, ready to paste, remix, and import into Notion.

Value bullets (3 max)

- 🛠️ **5 categories — 10 prompts each:** Content, Sales, Operations, Research, Customer Support
- 🌐 **Bilingual FR + EN** in the same file — use them with FR or EN clients without rebuilding
- 📄 **Notion-importable CSV** in 30 seconds — organized library, filtered views, favorites

Primary CTA

Get the pack — \$12 → [\(Gumroad\)](#)

Secondary CTA

Instant download. Lifetime updates.

Short variants (stories / posts / DMs)

Variant 1 — Curiosity gap

I have 50 prompts that run my business. Selling them for \$12. Link in bio.

Variant 2 — Challenge

Still using the same ChatGPT prompt for 6 months? I have 50 calibrated ones. \$12.

Variant 3 — Specificity

50 prompts, 5 categories, FR + EN, importable to Notion. \$12. Link in bio.

Variant 4 — Anti-pitch

I didn't write "100 prompts to make \$10k/month". I wrote 50 prompts I actually use. \$12.

Post-purchase email

Subject: 📦 Your 50 prompts (paste now)

Body: Hey,

Here's your pack. Download here → [LINK_ZIP]

Inside:

- `prompts-en.md` + `prompts-fr.md` — full 50 prompts, organized by category
- `prompts.csv` — import straight into Notion (instructions in the guide)
- `guide-en.md` + `guide-fr.md` — how to use and remix them

My advice: start with the **Sales category** (prompts #11 to #20). That's where you see ROI fastest — one cold email that converts pays back the pack 100 times.

When you've tested your first one, hit reply and tell me which you picked.

Your move 🚀
